FOR THE FINAL SPRINT

Y. M. C. A. Automobile Race Ends at
9:30 Saturday Night.

The final sprint in the Topeka-Wichita
automobile endurance race began to-
day and will continue until the close of
the Y. M. C. A. membership campaign
at 9:30 o'clock Saturday night. Until
then no news will be received from the
Wichita race track.

Through lack of gasoline and fre-
quent blowouts the Topeka aggregation
was 45 miles behind the Wichita flyers
at 6 o'clock Thursday evening. It is
hoped that several of the Topeka teams
have withheld some money received
from memberships, and if this be true,
it is yet possible that the local asso-
ciation will win out in the race. In-
fact a number of the team leaders ex-
press themselves as being confident of
victory.

This noon an enthusiastic meeting
of workers in Gemmill hall was ad-
dressed by Hugh McFarland and A. B.
Cowden of Salina, formerly with the
local association.

Two traveling men have promised to
assist in the campaign Saturday. They
are T. J. Averell of Spokane, Wash.,
and D. F. Shirk, formerly of Topeka,
but now of Kansas City.

The standing of the local teams at
the Thursday evening count was as fol-
lows:

George Godfrey Moore, \$421.50; Dr.
W. W. Yates, \$237; George Budders,
\$215; Clyde Atwood, \$203; M. W. Card-

LEAVES FIANCEE \$1,000

Discouraged Dental Student Remem-
bers Her in Will.

Chicago, April 12.—Elizabeth
Graves of Burlington, Kan., will re-
ceive \$1,000 from the estate of George
Robinson, her fiancé, who shot him-
self to death here Thursday.
Robinson was a student in the Chi-
cago Dental college and his home was
in Capron, Ok.

On a table near where he was pick-
ed up dying, were two letters address-
ed to his mother, Mrs. Emma Rob-
inson of Capron, Ok. The first letter
contained an account of the financial
dealings of the student which were
approximately \$6,000 in the past
year. The second letter contained
detailed instructions as to the
disposal of his property. It required
that his fiancée, Miss Elizabeth
Grant of Burlington, Kan., receive
\$1,000.

Mr. Robinson and Miss Grant were
to have been married shortly after the
graduation exercises of the dental
college, which occurs early in May.

SIMON REPORTS FEES.

County Attorney Gets \$200 for Liquor
Case Work.

In quarterly report filed today with
the county commissioner, County At-
torney Simon shows that in January,
February and March he collected \$200
in extra fees from Shawnee county
jointists. This sum goes to Mr. Simon's
private bank account in addition to
his regular \$2,500 a year salary.

A tabulated report of fees collected
by the county attorney shows \$55.50
from the court of Topeka and \$240
from the district court. All of the city
court fees belong to the county and
\$40 of the fees from the district court
will go to the public till. Fees in six
liquor cases, however, are the personal
property of the public prosecutor. In
one case, Simon collected \$75, while he
received \$25 in five other cases.

OLD DUTCH CLOCKS.

Those Made by Paulus Bramer Had
Strange Chimes.

In response to an American inquiry, a
search has been made by this consulate
for a certain style of clock made by
Du Luss Bramer in Soon of Amster-
dam, but no trace of that firm was
found. All clock dealers here, how-
ever, knew of Paulus Bramer in Zoon-
clock makers in this city in the middle
of the eighteenth century. It is pre-
sumed that clocks of their make are

STUBBS STILL ON TOUR

Governor Goes to Brown County to
Speak Tomorrow.

Governor Stubbs came to town this
morning and left early in the afternoon
for Horton where he speaks tonight. He
will go from there to Brown county for
Saturday dates. The governor was much
pleased with his reception in Reno coun-
ty this week. In company with President
Waters of the State Agricultural college
he spoke at the Arbor day picnic of the
consolidated school in Reno. Four
school districts have been consoli-
dated here and they had a grand picnic.
Over one thousand students were present
and, according to the governor, they had
"a wagon load of cakes and pies for din-
ner."

The governor had words of warm praise
for President Waters' speech. The address
had to do with economic questions and
not politics. The president has made a
close study of this subject for some time
and the governor referred to his address
as a masterpiece.

The governor was pressed to make some
announcement in regard to his senatorial
campaign but the only thing he would
discuss was the Roosevelt campaign for
the presidency.

SMUGGLING TRICKS ABROAD.

Any Old Thing Is Used to Get Alcohol
Into France Free.

Describing a visit paid to the customs
laboratory, a correspondent notes the
manager as saying that one enterprising
innovator in an endeavor to avoid the
duty on alcohol had embodied it in soap
of which 70 per cent was pure spirit.

Then there is the imitation baby carried
by a nurse, who, by a judicious squeeze,
produces melancholy wails. A hearse
carried by four undertakers' men and fol-
lowed by a weeping family conveyed the
cemetery a coffin sumptuously draped
in black velvet, which contained one hun-
dred and eighty litres of alcohol.

One day a cart drawn by three horses
rumbled into Paris under the noses of our
customs officers. Apparently the cart
was laden with square blocks of stone;
in reality every stone was hollow and
contained alcohol.

First-class railway carriages sometimes
conceal face, chronometers, and expensive
cigars. Motor cars have false bottoms,
logs of wood are hollowed out. The in-
formant went on:

On the day the people of a little village
near the Belgian frontier were waiting
for the Bishop of Chimay, who was cross-
ing to conduct a confirmation. All the
villagers in their best clothes lined the
road. Presently the carriage comes in
carrying the priest and the bishop, who
carrying the pistol cross very gravely,
stretches out a hand to bless the statue
of officers, who bow their heads to receive
it. Then the carriage rolls on.

"Twenty minutes later there comes a
second carriage, much less elaborately
fitted up than the first, containing a sec-
ond bishop of Chimay. Suspicion fell on
the ecclesiastic, and he was requested to
leave the vehicle without delay, and his
carriage was ransacked from end to end.
Of course nothing is found. Not a stain
on the character of the bishop, who natu-
rally is the real one.

"You remember how Henri Rochefort's
paper 'La Lanterne' was placed under an
interdict under the empire, was smuggled
in from Belgium concealed inside
busts representing Napoleon III? The
same trick was used by the Germans who
practiced the manager concluded:

"But the worst crime of these people is
the adulteration of milk. 8,000 French
children are annually poisoned—yes, I de-
liberately say poisoned—by adulterated
milk."—Paris Le Temps.

Topeka Avenue Team Wins.

The Topeka avenue team defeated the
Polk team by a score of 7 to 5.
Pontius on the Topeka avenue team
struck out 19 men. Batteries: Pontius,
Kouns and Bell; Marshall and Kauf-
man.

HIGHWAYMEN TORTURED THIS HERMIT
FOR ALLEGED HIDDEN WEALTH

Jacob von Gunten, the hermit, and dia-
gram of his home showing: No. 1,
route by which highwaymen entered
house; No. 2, where Von Gunten was
attacked; No. 3, where body was
found; No. 4, door by which high-
waymen left.

Jacob von Gunten paid with his life
a sacrifice to neighborhood gossip
when, because of reported wealth, he
was tortured and killed by highway-
men. The murder occurred in his
home on Lindale turnpike, near
Cleveland, on the night of April 8.
He lived the life of a hermit, but in
spite of the current report that he

KILTIES BAND COMING

Will Play at the Auditorium on
May 4.

The famous "Kilties" Canadian band
will play in the Auditorium in the af-
ternoon and evening of Saturday, May
4. A deal for the engagement was
closed today by the pipe organ com-
mittee of the Commercial club and
John Hazza, a representative of this
unique organization. The prices will be
popular and the proceeds will go to-
wards the pipe organ fund.

The band has recently returned from
a tour of the world. The organization
needs no introduction in Topeka as the
musicians were in the city several
years ago and pleased the audiences in
the Auditorium. The odd Highland
costumes, the male choir, the bag-pipe
soloists, a giant drum-major over 7
feet in height and a troupe of Scotch
Highland dancers are among the in-
teresting and enjoyable features. There
are 40 artists in the band.

The prices for the matinee will be
50 and 25 cents and for reserved
seats in the center of the main floor.
The prices for the evening will range
from \$1 down to 25 cents.

ELECTRICITY VS. CANCER.

French Surgeon Demonstrates New
Cure for Malignant Scourge.

Medical history, which is likely to
be of untold importance to the human
race, is being made at the New York
Skin and Cancer hospital, at Second
avenue and Nineteenth street.

Recently for two hours Dr. de Keat-
ing Hart of France demonstrated be-
fore a body of medical men interested
in cancerous diseases the use of what
is known as the Fulgurization treat-
ment, which, it is claimed, does away
with recurrences of the otherwise fat-
al malady.

The general theory of the treatment
is that after a malignant tumor has
been removed the healthy cells that
surround it are made, by sparks of
extremely high static electricity, for-
ever incapable of again being able to
harbor and promulgate cancerous
leaves the person who has received the
treatment is believed to be as free
from cancer as one who has never
had it.

In the amphitheater of the Skin and
Cancer hospital a score of physicians
gathered, robed in antiseptic garb,
their heads well covered, and watched
a half dozen operations for the re-
moval of cancer. Most of them were
for affliction of the face. At one time
three operations were going on simul-
taneously.

Dr. Hart stood with the conductor
of the electric machine in his hand.
As each tumor was removed he ap-
plied his treatment. Sparks of great
brightness but extreme brilliancy shot
from the instrument into the cavity
made by the surgeon's knife.

He explained, with a strong French
accent, through the gauze veil that
almost completely covered his face,
that science had discovered that these

sparks so changed the healthy cells
upon which the cancer had grown
that they would be entirely different
in their nature and the recurrence
of the disease would be made impos-
sible. The microscope has shown this to
be the case, but a strange feature is that
the current appears to have no effect
upon the diseased cells themselves.

New York World.

Man Is Shot Five Times.

Lynn, Mass., April 12.—The body of
George E. Marsh, president of a soap
manufacturing company here, was
found today beside the Point of Pines
boulevard. There were five bullet
wounds in the body. The police be-
lieve Marsh was murdered.

Card of Thanks.

We wish to thank the friends and
neighbors for the beautiful floral of-
ferings and for the kindness shown us
during the sad death of our dear and
only child, Louise.
